Profile

IT student and Full Stack SDE with a proven track record of building production-ready applications across the MERN stack, PostgreSQL, Prisma, and React Native. Expert in DSA, RESTful API design, and secure authentication (JWT, HMAC-HOTP, RBAC). Uniquely skilled in solving complex engineering challenges involving distributed systems, real-time collaboration logic (CRDTs), and integrating generative AI into scalable architectures.

SKILLS

- **Languages:** C++, JavaScript (ES6+), Python, C, SQL
- **Core CS:** DSA, OOP, DBMS, OS, Computer Organization, System Architecture
- **Frontend & Mobile:** React.js, React Native, Expo Go, TypeScript, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT, RBAC
- **Databases:** PostgreSQL, Prisma, MongoDB, Redis
- **Tools:** Git, GitHub, Arch Linux, Postman, Thunder Client, Render, Vercel, Cloudinary, Hyprland, Neon Tech

EXPERIENCE

26/01/2024 – Present
Kolkata,India

Software Development Engineer Intern – IQApex Labs

- Built and maintained **full-stack applications** using **React, Node.js, Express, and PostgreSQL**, supporting internal business workflows.
- Deployed low-latency **RESTful APIs** with strict data validation and error handling. and optimized response times.
- Secured application routes using robust **authentication** and **Role-Based Access Control** (RBAC).
- Worked closely with senior developers to **systematically troubleshoot**, **restructure**, and **fine-tune** existing codebases, resulting in a more robust and highly performant application
- Maintained high software quality standards by applying **clean architecture principles**, **utilizing Git version control**, and executing within an **Agile-driven production** ecosystem.
- Click here for **Certificate Link**

PROJECTS

Cloud-Desk
React, TypeScript, Node.js, Express, MongoDB

- Built a comprehensive **real-time educational workspace** integrating a synchronized **code editor, interactive whiteboard, live video meetings, and real-time chat.**
- Developed an broad learning platform featuring structured video lectures, quizzes, and a custom in-browser algorithmic problem-solving environment (LeetCode-style).
- Implemented advanced **real-time collaboration** logic utilizing Conflict-Free Replicated Data Types (**CRDTs**) with ***Yjs*** to handle **concurrent user** interactions seamlessly.
- Integrated **Redis** for **fast, low-latency** data synchronization and **MongoDB** for tough data persistence within a highly scalable, distributed architecture.

AgriSathi
React Native, FastAPI, Python, PyTorch, Firebase

- Developed a **cross-platform React Native application** with a mobile-first design, optimizing frontend performance for seamless use in low-connectivity environmer
- Architected a scalable backend using **FastAPI** and **Python**, deploying **PyTorch machine learning models** to execute real-time crop disease identification.
- Integrated **Firebase** to efficiently manage **real-time data synchronization** and **secure authentication**, alongside deploying a **multi-language AI chatbot** for personalized advisories.

Full-Stack Social Media Application
React (Vite), Express, Node.js, MongoDB, Socket.io, Tailwind CSS, Cloudinary

- Developed a **MERN-stack** platform featuring real-time **Socket.io** messaging, **Cloudinary** media uploads, and custom **RESTful APIs**.
- Built a mobile-first **Tailwind UI** with auto-playing video feeds (**Intersection Observer**) and 24-hour expiring stories (**MongoDB TTL**).

EDUCATION

2024 – Present
Kolkata, India

B.Tech in Information Technology with 9.02 CGPA,
Techno Main Salt Lake
Relevant Coursework: Data Structures & Algorithms,Computer Organization and Architectures, DAA, DBMS, OS, OOP.

2023

Class XII (BSEB) | 85%
Sabour College, Tilkamanjhi Bhagalpur University | 2023

2021

Class X (CBSE) | 83%,
AD Saraswati Vidya Mandir, Bhagalpur, Bihar | 2021

Position Of Responsibility

Dec 2024 – Present
Kolkata,India

Tech Member - Institution's Innovation Council (IIC)

- Led web development initiatives and coordinated digital infrastructure for high-stakes innovation events, including **SKILL De** and the **Hult Prize**.
- Engineered dynamic event platforms and maintained the **official council website**, facilitating seamless participation for **many hundreds** of students.
- Improved **frontend performance** and **UX** across multiple **IIC micro-sites** by optimizing component rendering and ensuring cross-browser compatibility.
- Collaborated with cross-functional teams to execute institutional hackathons, fostering a vibrant ecosystem for **campus entrepreneurship** and **tech innovation**.

ACHIEVEMENTS

- Winner of Geekathon '26 | Organized by Geekonix
- Top-ranked (in academics) among the students in the IT branch.
- Qualified for Smart India Hackathon (SIH) 2025
